

## GOOD SPORTS PROGRAM AT HUSSAR STAMPEDE

Thrilling Horse Races, Wild Horses and Steers, Picnicking, Entertainment For Crowd—Weather Unfavorable and Attendance Less Than Last Year

Wildly bucking broncos, rearing plunging exudes, wild eyed steers, footed race horses and spectacular rides by the sun tanned knights of the saddle provided thrills aplenty for the spectators at the Hussar Stampede on Victoria Day, May 24. The program of horse races and cowboy sports was the best yet given in Hussar. Competition was keen, with some of the best riders in south Alberta competing for the prize money.

Cool weather and a strong wind that frequently raised clouds of dust over the stampee grounds kept many people away from the stampee and cut the attendance down to less than that of last year. But the spectators were treated to a good program and got more than their money's worth in thrills and excitement.

Following is the list of prize winners:

### Riding Bucking Horses With Saddle

1. Joe Fisher, of Kew; 2. Frank Sharpe, of Kew; 3. Leo Warren, of High River.

### Hiding Bucking Horse Back

1. Frank Sharpe, 2. Carl Hill, Calgary; 3. Tony Van West.

### Steer Hiding

1. Frank Sharpe, 2. Joe Peake, of Thorby and Ray Reynon tied for second money.

### Wild Cow Milking

1. Tom Peake, Dorothy, 2. Ingle, One Mile Freehold; 3. B. Wishart, 2. Three Sons; 3. Leo Snyder, Wintering Hills.

### Boys' Pony Race

1. Jim Wolff, Gleichen; 2. Joe Barrow; 3. Art Smith.

### Quarter Mile Horse Race

1. Mark Spring, Chit, Gleichen; 2. Young Man, Gleichen.

### Half Mile Indian Race

1. Spotted Eagle; 2. Three Sons; 3. Half Mile, Reservoir Race.

### Half Mile Reservoir Race

1. Paul West, Head, Gleichen; 2. Mary Piers, Gleichen.

### Relay Race

1. D. McManis, Gleichen; 2. Young Man.

### Half Mile Ladies' Horse Race

Leo Snyder and H. A. Smith tied for first place.

### Wild Horse Race

1. Harold Walsh; 2. Pat Smith.

### Boys' Chair Race

1. Pete Boyer, Lorne Cawley and Marcus tied for second money.

### Relay Hoping

1. E. McDonald, Wynnewood; 2. Eddie McCoy; 3. Dick Big.

### Roman Standing Race

1. H. A. Smith; 2. D. McManis.

### Children's Sports

Boys' 50 yd. dash, under 8; 1. Geo. Brassard; 2. Eugene Brassard.

Girls' 50 yd. dash, under 8; 1. Josephine Holland; 2. Anne Moffat; 3. Evelyn Hume.

Boys' 50 yd. dash, under 11; 1. William Ross; 2. Walter Schaffer; 3. Morris Brassard.

Girls' 50 yd. dash, under 11; 1. Ruth Brown; 2. Mary Kelly; 3. Jean Walters.

Boys' 100 yd. dash, under 14; 1. Lorne Moffat; 2. Emerson Brown; 3. Nelson Long.

Girls' 100 yd. dash, under 14; 1. Nedra Schaffer; 2. Jean Walters; 3. Evelyn Hume.

Boys' 100 yd. dash, open; 1. Frank Jackson; 2. John Moffat; 3. Lloyd Leonard.

Girls' 100 yd. dash, open; 1. Lella Kelly; 2. Lucille Snelling; 3. Prada Schaffer.

Running broad jump, 14 and under; 1. Lorne Moffat; 2. Adam Armstrong; 3. Jerry.

Running broad jump, over 14; 1. Lloyd Leonard; 2. Andrew Cathro; 3. Jason Bell.

Hop, step and jump 14 and under; 1. Adam Armstrong; 2. Jim Treacy; 3. Lorne Moffat.

Hop, step and jump over 14; 1. Harold English; 2. Jason Bell; 3. Lloyd Leonard.

Relay race, 4 to school, 2 girls and boys; 1. J. Moffat, Jason Bell, Lucille English, and Margaret Le Grandeur.

Wheelbarrow race, open; 1. W. Treacy and H. English; 2. J. Treacy and F. English; 3. Carl and Earl Snelling.

Sack race, 8 and under; 1. Brian Reesor; 2. Jim Kelly; 3. George Brassard.

Sack race, 11 and under; 1. Carl Snelling; 2. Morris Brassard; 3. Walter Schaffer.

(continued on back page)

## WILL REMODEL INGRAM BLOCK FOR THEATRE

Alterations Now Being Made—Hope to Have It Ready in Month's Time

The Ingram Block, next door to the Royal Bank on the west, has been purchased by P. Uthering who will remodel the building for use as a picture theatre.

Since the Gem theatre was destroyed by fire a couple of months ago Mr. Uthering has been considering a number of plans for a new theatre, and finally decided to purchase and remodel the Ingram Block. Work on the building, which has already been started, and the theatre manager hopes to have the new show house ready for the public early in July.

The Ingram Block was built about the year 1912, and for a while was occupied by the Quebec Bank. The building has been unoccupied for a number of years.

## Bearcats Trim Meat-lambrook 10-3

Bassano Stingers Hit Hard and Often—Have Two Victories to Their Credit With No Losses

The Bearcats out-hit the visiting Meadowbrook baseball team in 5 league games here last Wednesday evening to win by 10 runs to 3. The Bassano bats wielders started right off in the first inning to knock the white horribles all over the field, and ran in four runs before the end of the inning. In the second inning they tallied three more runs, and another one in the third. Two more runs in the sixth stanza brought the count up to 10, and the local boys did not hit in the seventh. It was a seven inning game on account of early darkness.

The weather was poor for baseball. The sky was overcast, with dark rain clouds, and a strong wind blew from the north-east. The attendance was poor because of the disagreeable weather. Walter Bulmer tossed for the Bearcats, and had the game well in hand all the time. In the sixth he was relieved by Vorech.

The score by innings:

Bearcats	1	0	0	0	2	10
Meadowbrook	0	0	0	0	0	3

The line-up:

Bearcats: 1. b. Ralph Burrows; c. Royal Burrows; f. Leonard; s. Rodbourne; c. f. Wheeler; r. f. Graham; 2. b. Bulmer; p. Meadowbrook: 1. b. J. Williams; 2. b. Walter Schaffer; 3. Morris Brassard; 4. b. Ruth Brown; 5. Mary Kelly; 6. Jean Walters.

Boys' 100 yd. dash, under 14; 1. Lorne Moffat; 2. Emerson Brown; 3. Nelson Long.

Girls' 100 yd. dash, under 14; 1. Nedra Schaffer; 2. Jean Walters; 3. Evelyn Hume.

Boys' 100 yd. dash, open; 1. Frank Jackson; 2. John Moffat; 3. Lloyd Leonard.

Girls' 100 yd. dash, open; 1. Lella Kelly; 2. Lucille Snelling; 3. Prada Schaffer.

Running broad jump, 14 and under; 1. Lorne Moffat; 2. Adam Armstrong; 3. Jerry.

Running broad jump, over 14; 1. Lloyd Leonard; 2. Andrew Cathro; 3. Jason Bell.

Hop, step and jump 14 and under; 1. Adam Armstrong; 2. Jim Treacy; 3. Lorne Moffat.

Hop, step and jump over 14; 1. Harold English; 2. Jason Bell; 3. Lloyd Leonard.

Relay race, 4 to school, 2 girls and boys; 1. J. Moffat, Jason Bell, Lucille English, and Margaret Le Grandeur.

Wheelbarrow race, open; 1. W. Treacy and H. English; 2. J. Treacy and F. English; 3. Carl and Earl Snelling.

Sack race, 8 and under; 1. Brian Reesor; 2. Jim Kelly; 3. George Brassard.

Sack race, 11 and under; 1. Carl Snelling; 2. Morris Brassard; 3. Walter Schaffer.

When the R-100, Great Britain's huge new dirigible, arrives in the Dominion shortly, there will be no excuse for any Canadian being ignorant of her visit. The news will be broadcast throughout Canada by the Trans-Canada Broadcasting Company from coast to coast over the radio program transmission system of the Canadian Pacific Railway Company's Trans-Canada Service.

The arrangements will include a twenty-four hour service on the day of arrival and will be put out through stations in Quebec, Montreal, Toronto, London, Winnipeg, Regina, Saskatoon, Edmonton, Red Deer, Calgary, Vancouver, Fleming and Yorkton, Sask. Messages from the airship will be broadcast as she approaches the 75-mile radius and will include a description of the mooring one of the most interesting and exciting moments in the whole program. This will be broadcast by T. Carey Finn, managing editor of the "Ottawa Citizen" as chief announcer.

The broadcast of the arrival will be supplemented during the two succeeding days by bulletin services and descriptions of special events. Lay-out shows the R-100 in flight, the Union of the air liner, and the St. Hubert mooring mast.

## Rosemary News

ROSEMARY, May 25.—W. J. Park spent the week-end in Calgary. Mr. L. Young and Mrs. Stahl were Bassano visitors last Friday. The Rosemary baseball team won a game played here last Sunday afternoon. The Rosemary team won a game played here last Sunday afternoon. The Rosemary team won a game played here last Sunday afternoon.

## Hussar School Team Wins From Bassano

Bassano Lads Get Trimming in Victoria Day Baseball Game

HUSSAR, May 25.—The ball game between the Hussar High school team and the Bassano team, played here on Saturday evening, was one of the most interesting events of the May 24th celebration. Hussar won with a score of 7-2. P. C. P. Farley was umpire.

The line-up: Hussar: Jason Bell; Gordon LeGrandeur; c. Mayville Anderson; 1. b. Graham Montgomery; 2. b. John Moffat; 3. b. E. Metts; 4. b. John Williams; c. f. Ivan Anderson; f. Lorne Moffat; s. Bassano: Bud Deegan; c. McFarlane; c. Frank Jackson; 1. b. Stanley Wright; 2. b. Ted Stiles; 3. b. Andrew Cathro; f. Ferguson; c. f. Darrel Gamble; r. f. Lloyd Leonard.

## Independent May Oppose U. F. A. In Bow Valley

Old Parties Are Outriden in Favor of Independent Convention Friday, May 30

A two-sided election fight looms in Bow Valley, with the Farmer party on one side and all their opponents lined up on the other under the banner of an independent candidate. A meeting of electors was held in the Town Hall, Bassano, last Tuesday evening, to discuss the possibility of running an independent candidate. Electors from Brooks, Calgary, Edmonton, and other points attended this meeting, and the general opinion of those present was that all non-U. F. A. electors should unite in choosing a non-partisan leader to contest the Bow Valley seat in the provincial election which will be held on Thursday, June 13.

## ANNUAL CANTON INSPECTION WED, JUNE 11

Word has been received from headquarters M. D. No. 43, Calgary, that the annual inspection of the Bassano Cadet Corps will take place on Wednesday, June 11, at 2:30 p.m. The inspecting officer this year will be Captain Mitchell.

Last year the Bassano boys won the Army and Navy Veterans Trophy for the best physical training team, and they came third in the Bennett shield competition for general efficiency. This year, under the leadership of Captain Lieutenant Arthur Thompson, they are out to bring further honors to Bassano.

The inspection will include first aid, signalling, platoon drill, musketry, physical training, and march past. Visitors are cordially invited to attend the inspection, and some very fine snapshots may be taken as the boys give a demonstration of physical training exercises and pyramidal building while competing for the provincial leadership.

## MAIN HIGHWAY NOW BEING GRADED

Grading of the main highway between Bassano and Gleichen is now proceeding. The dangerous curves on the Crowfoot hill are being improved by making an easier grade and more gradual curve.

## Countess

COUNTRESS, May 25.—Mrs. Jordan and children were callers at the Reservoir home Thursday.

Many cars from Countess were on their way to the Hussar Stampede bright and early Saturday morning. Mr. and Mrs. Hutchinson, of Glenora, were visitors on Saturday. Mrs. A. M. Anderson on Saturday. Mr. and Mrs. Ralph Burrows motored to Gleichen on Saturday.

Mrs. Maxton, of Calgary, spent the holiday with her daughter, Mrs. J. Snape.

Mrs. Jean Gamble returned from Calgary Tuesday. She was attending the music festival.

Mrs. Price was in Calgary over the week-end.

Mr. Levesque's mother, of Wynnewood, has been a visitor at his home for the past week.

Orline Sorenson was quite ill the first of the week.

Max Gamble and Carl Gamble were suffering from flu the past week. Mrs. H. Cowan was badly shaken up on Tuesday when a horse she was driving became frightened at the dropper. They were passing, and the horse ran away, upsetting the car and throwing Mrs. Cowan to the ground.

Mrs. and Mrs. Held and Fred were guests for supper at the Blues home Sunday evening.

Mrs. Ralph Burrows had as dinner guests on Sunday Mr. and Mrs. Royal Burrows and children.

## Hussar News

HUSSAR, May 25.—Dan English motored to Bassano Friday. T. Anthony, Miss Kuchie, Mrs. LeGrandeur, Miss Margaret Bell were Bassano visitors on Friday.

Mr. and Mrs. R. C. Armstrong and family spent the week-end with Mr. and Mrs. W. G. Nelson.

Miss Lillian Hayes was down from Calgary for the stampee.

Mrs. F. Parley and Mrs. T. A. Hawkshaw motored to Standard on Monday.

Mr. and Mrs. A. A. Cliffland and Miss Lila were Calgary visitors on Monday.

Mr. and Mrs. E. N. Stiles and Edwin motored to Bassano on Monday evening.

Mrs. R. Severns and daughters J. Keville and Miss Doty Nelson motored over from High River as the guests of Mrs. A. J. Kodjak for the week-end.

Miss Daisy Heron was home for the week-end.

Miss Mariel Betts was down from Standard over the week-end.

Frank Hestley and Al Anderson left for Turner Valley on Tuesday.

Mrs. Resnor B. arrived here on Tuesday from Medicine Hat to visit with her son, C. W. Resnor, and family.

C. T. Armstrong motored to Calgary on Friday.

"The Ladies' Aid" will meet at the home of Mrs. W. H. Miles on June 19.

The Ladies' Aid of Hussar ran a booth on the grounds and sold paper at the kitchen. They also catered for the day on stampee day, and altogether took in about \$425.00.

## BOARD OF TRADE

Twenty members attended the regular meeting of the Hussar Board of Trade in the Imperial Hotel dining room Wed. noon, May 28.

The Calgary Board of Trade advised by letter that they were making plans for their annual good will tour and would stop off in Bassano for a few minutes next Wednesday, June 4, and also the next day, Thursday, June 5, from 12 noon till 2 p.m.

Plans were made to entertain the visitors.

Wm. McIlwain, in reporting for the sugar beet committee, said that he had succeeded in interesting certain sugar raising interests in Utah in the possibilities of the best sugar industry in Alberta. They will send a representative to Alberta this summer to investigate the possibilities of the industry here.

H. F. McDonald reported that the sugar beet committee was making plans for the first of July sports. In connection with this matter several suggestions were made concerning the type of program for the Dominion Day program.

E. A. Beck, chairman of the tree planting committee, said that the tree trees are doing well, but that they should be supplied with more water than they were getting. A real good irrigation now, said Mr. Beck, would do far more good than several irrigations in the middle of summer.

Hudson's Hay Company testing oil structure.

A number of small prospect holes are being drilled by the Hudson's Hay Co. a few miles south of Bassano on a geological structure that indicates possibilities of an oil field.

The nature of the upper strata is first being examined, and if indications are favorable a deep test hole will be drilled.

The company controls a large area of land in the neighborhood of the acreage being tested.

HON. W. L. MACKENZIE KING who will appeal to the Canadian people this season to support the Liberal Government

## MORE RAINFALL AIDS GROWING WHEAT CROP

Gem Gets More than "Inch of Rain During Past Week—Other Districts Receive More than Three Quarter Inch

The wheat crop of the Bassano and neighboring districts is showing a wonderful growth under the stimulus of frequent rainfalls that keep the soil well supplied with moisture. Rain fell last Sunday, May 25th, and again on the 28th and 29th. Gem district received a total of 1.84 inches of precipitation during the past week with lesser amounts in the other districts where rain gauges are located. At Bassano the total of the three days of rainfall was .36; and at the dam, 25, at Capreva 25.

The daily precipitation figures are as follows:

Bassano	May 25	28	29
Bassano Dam	25	14	05
Countess	27	08	37
Gem	60	84	40
High River	25	14	05
MacKenzie and Hussar during the past week but as there are no rain gauges at these points the exact precipitation cannot be stated.			
Although the weather has been rather cool for the best development of the grain, the young wheat crop is making great strides. The soil contains a good supply of moisture, and general conditions are as good as during any spring in the history of the weather.			
Conditions are fine for breaking, and a considerable area of soil is being turned over.			

## Conservatives To Contest Bow River In Federal Election

Conservative Convention in Gleichen Next Wednesday, June 4

That a Conservative candidate would probably contest the Bow River seat in the federal election this summer was the statement made today by prominent Bassano Conservatives.

The party will hold their convention in the Community Hall, Gleichen Wednesday afternoon next week, June 4, at 2:00 p.m. Several names were suggested as possible candidates.

These included S. L. McMullen, of Drumheller, coal mine operator; W. H. Sanderson, of Drumheller, lawyer; Dr. G. M. Carlen, of Valley.

The date of the federal election has not yet been chosen, but the Bow River Conservatives are not waiting for that as they are starting right now to plan their campaign.

This is the first federal election move in Bow River. The other parties are not yet in action.

## SWIMMING POOL OPEN SOON

The Bassano swimming pool will be opened for public use as soon as the weather turns warm. Everything is in readiness for the water.

The brick floor has been completed and the pool has been made deeper under the diving platform and diving board.

The swimming pool committee is now looking for a caretaker who can look after the pool and give instructions in swimming.

HON. R. B. BENNETT  
Leader of the Conservative party in the House of Commons

## Subsidies Are Necessary If Insurance Scheme For Unemployed Is Adopted

Ottawa, Ont.—A scheme of unemployment insurance for Canada must of necessity be supported by government subsidies, said Prof. Gilbert B. Jackson, of the University of Toronto, addressing the Canadian Political Science Association in annual session here.

Even in England, Prof. Jackson said, where labor statistics dating back 60 years were available, it had been found necessary to support the scheme by state assistance. It would be almost impossible to carry on unemployment insurance by workers' contributions alone in Canada, where the expectation of employment in future seasons could not be as well charted as in England, even.

The unemployment situation was more cruel in Canada than in any other country because of the conditions, not only in seasonal employment, but in demand for labor as between the various provinces.

Questions which he contended, must be carefully considered before putting such insurance into effect were whether there was in Canada a sufficient body of public opinion in favor of it, and whether there was danger that the energy of the Canadian workers would be sapped by a longening.

Benefits of the scheme would be largely dependent on an associated scheme of health insurance, and the greatly extended employment placement service.

## No Duty On Foreign Wheat

British Government Is Opposed To Tax Says Minister

London, England.—The question of preference for the Canadian wheat-grower in the British market for foreign wheat-growers came up in the House of Commons. Rt. Hon. William Graham, president of the Board of Trade, in reply to a suggestion, said the government did not intend to impose any duties on foreign wheat, so that the question of granting Canada preference did not arise.

The answer brought a spirited reply from the Conservative opposition. "Do we understand the government's reply to the Canadian tariff concessions is that we can only treat them the same as we treat our own governments?" Mr. Graham was asked.

"Not necessarily," the cabinet minister replied. "The questioner speaks of a tax on all import wheat. The government is opposed to this."

## Toronto Man Killed When Parachute Fails

Was Making First Attempt To Jump From Airplane

Toronto, Ont.—Attempting his first parachute jump from an airplane, Kenneth Burgess, Toronto, was killed when the parachute failed to open. The airplane was at an altitude of 1,500 feet when Burgess jumped. The unopened parachute caught on a tangle of telephone wires, hurling him into the ditch. He was alive when picked up and a doctor was summoned, but he died a few minutes later.

The airplane was a Colonial Airways machine, which left the company's field near Dufferin Street in North York Township.

Burgess is survived by his widow and two children.

## Lady Astor Rebuked

Work Woman Told Her She Was "No Lady"

Nottingham, England.—Lady Astor was told "and by a working woman" that she was no lady.

Mrs. Astor was addressing a women's meeting, and in the course of her speech, referred to George Lansbury, first commissioner of works as "a dear old soul, middle-aged and half-witted."

Whereupon the woman of the working class interjected heatedly: "Mr. Lansbury, at any rate, is a gentleman, but you are no lady."

## No Press Men On Driftless

London, England.—The only press information that will be given respecting the R-100 flight across the Atlantic will be that kept by Wing Commander R. B. B. Colmore, who will release it on the craft's arrival in Canada. On the return trip Canadian and British newspapermen will be carried.

W. N. U. 1839

## Naval Agreement Is Attacked By Admirals

Places Their Navy In Inferior Position Say U.S. Officers

Washington, D.C.—Two more admirals told senate committees that the London naval treaty would leave the United States in a position of inferiority.

Admiral J. V. Chase, of the General Board, said the pact did not represent parity with Great Britain, and had many other flaws from the viewpoint of a navy man.

Although he was an adviser at the London conference, Rear Admiral J. R. Pringle said, he was consulted but once by the United States delegation. He advised the delegates against the cruiser arrangement they finally accepted.

## HOUSE UNITED IN ENDORSING PENSIONS BILL

Ottawa, Ont.—The government and the opposition united in expressing appreciation for the work of the parliamentary committee on pensions, when the bill to amend the pensions act was introduced in the House of Commons. The bill is to give legislative effect to the recommendations of the pensions committee decided upon after a long enquiry into the claims of organizations of returned men for more generous treatment. The bill passed the committee stage quickly, and was then given third reading. It now goes to the senate.

When he arose to explain the bill, Hon. J. H. McCrear, Minister of Pensions and National Health, praised the work of the committee. He felt that not only would the returned men, but all the people of Canada, be pleased with the work which had been accomplished and highly appreciative of the untiring efforts of the members of the committee. The report of the committee was unanimous.

The bill revises the machinery for dealing with appeals of soldiers from the pensions board. It provides a veterans' bureau to prepare the cases for soldiers. An important change gives a veteran the advantage when there is a reasonable doubt as to whether his incapacity was due to war service.

Constituting the committee on the patient consideration and expert knowledge brought to this important question, Hon. R. B. Bennett said its members were entitled to the thanks of the nation. The committee was composed of men with first hand experience of military problems. He especially praised the chairman, C. G. Power (Liberal, Quebec South).

No difference of opinion existed among Canadian people, the Conservative leader declared, as to the pensions problem. They wanted a measure of generous compensation for those who had risked their lives for their country. It assured the returned men the country was behind him.

There was nothing particular in the bill or in the methods by which the committee had worked.

## Saskatoon Cadets Victors

Win Junior Shield In Dominion Rifle Shoot

Ottawa, Ont.—A youthful team of cadets of St. John's College Institute, Saskatoon, Sask., won the junior shield in the winter cadet shooting series held throughout the Dominion. Under the auspices of the Dominion of Canada Rifle Association, a report issued from headquarters of the association that the Saskatoon cadets completed a high average of 97.11 out of a possible 100. The Quebec team won the senior cadet shield with a shooting average of 98.80.

## Special Stamp Issued

Melbourne, Australia.—Paying a short and intensive campaign to assist the appeal of the prime minister of Australia, Hon. James Henry Scullin, for the growing of wheat in this year, the postal department has issued a special cancellation stamp bearing the words: "Grow More Wheat."

## Nansen's Successor

Osk, Norway.—Prof. H. U. Sverdrup, for the growing of wheat in this year, the postal department has issued a special cancellation stamp bearing the words: "Grow More Wheat."

Nansen's successor, the Norwegian explorer, as leader of the proposed Dr. Fridtjof Nansen Arctic flight.

## NEW PORT LAUREATE

John Macleod, some time sailor and vagabond, who has been appointed poet laureate of England. The poems "Dauber" and "The Everlasting Mercy" and novel "Sard Harker" are among his better known works.

## Wants Public Represented

People Interested In Veterans' Allowance Act Says Major-General MacDonnell

Ottawa, Ont.—Criticism of the plan to appoint the committee to administer the War Veterans' Allowance Act wholly of returned men was made by Major-General A. H. MacDonnell, a member of the Senate. The bill is to give legislative effect to the recommendations of the pensions committee decided upon after a long enquiry into the claims of organizations of returned men for more generous treatment. The bill passed the committee stage quickly, and was then given third reading. It now goes to the senate.

When he arose to explain the bill, Hon. J. H. McCrear, Minister of Pensions and National Health, praised the work of the committee. He felt that not only would the returned men, but all the people of Canada, be pleased with the work which had been accomplished and highly appreciative of the untiring efforts of the members of the committee. The report of the committee was unanimous.

The bill revises the machinery for dealing with appeals of soldiers from the pensions board. It provides a veterans' bureau to prepare the cases for soldiers. An important change gives a veteran the advantage when there is a reasonable doubt as to whether his incapacity was due to war service.

Constituting the committee on the patient consideration and expert knowledge brought to this important question, Hon. R. B. Bennett said its members were entitled to the thanks of the nation. The committee was composed of men with first hand experience of military problems. He especially praised the chairman, C. G. Power (Liberal, Quebec South).

No difference of opinion existed among Canadian people, the Conservative leader declared, as to the pensions problem. They wanted a measure of generous compensation for those who had risked their lives for their country. It assured the returned men the country was behind him.

There was nothing particular in the bill or in the methods by which the committee had worked.

## Change Will Assist Trade

Canadian Tariff Gives Many Advantages To British Manufacturer

London, England.—Hon. W. R. Smith, parliamentary secretary to the Board of Trade, said in the House of Commons that the changes in the Canadian tariff would assist business operations in a great many sections of export trade of Britain. Every effort was being made to assist manufacturers and traders to the best of their ability.

Mr. Heenan is awaiting word from these two board members as to the setting of a third meeting which will act as chairman.

## NEW TARIFF ON FRUITS IS TO BE AMENDED

Ottawa, Ont. Amendments will be introduced to a number of items in the tariff act, affecting fruit and vegetables, Hon. C. A. Dunning, Minister of Finance, announced in the House of Commons. The changes will be the first of the year in which foreign importations come in competition with Canadian grown fruit and vegetables.

The amendment of the tariff was greeted with applause by the Conservatives who expressed the opinion that he had become a convert to the seasonal tariffs they had been advocating.

When the amendment was quoted, Mr. Dunning explained that the decision to limit the specific duties to certain seasons would of the entire year had come as a result of conference with the fruit and vegetable growers. They had expressed willingness to co-operate in this connection. He could not promise that the seasons would suit all the growers from the Atlantic to the Pacific because of the many differences as to the dates when such products are marketed here, but an attempt had been made to deal as fairly as possible.

The House spent the entire day on budget resolutions, and some portion was recorded. The ten items, as amended by the budget were immediately approved. Under this item produced in the British Empire entered Canada free under the preference, and is subject to duty of nine cents, intermediate, and ten cents, general.

The resolution was also given to the resolution which declared that excise duties or taxes shall be disregarded in estimating the market value of goods for special duty, when these commodities come in under the British preference, or intermediate tariff. The resolution passed, however, and it is not certain Conservative members that the Canadian silk industry would suffer through the admission of Japanese silks.

## Considering Reverse "Rhodes Scholarships"

Would Permit English Boys To Attend Canadian Universities

Toronto, Ont.—Sir Robert Falconer, president of the University of Toronto, announces the establishment of a reverse "Rhodes Scholarship" is being considered by a committee of students to permit English boys to attend Canadian universities.

Dr. Cyril Norwood, chairman of the party of English schoolmasters which recently visited Canada, strongly advocated such an exchange of students, stressing his wish to see English boys specialize in economics and science. In praising the idea, Chancellor H. P. Whidden, of McMaster University, said, "I consider the point by Dr. Norwood, that Canada offers opportunities in the scientific and economic fields is well taken."

These additions to the network stations linking up the Arctic with the rest of Canada have already been approved by order-in-council, and the work of installation is to be carried out immediately by the Department of Marine and Fisheries.

Decision to establish the coppermine station is timely in view of the influx of prospectors which is anticipated in the district. Both stations will have an important bearing on the successful navigability of the Hudson Bay route.

## Cancellation Board To Settle Dispute

Dealers At Vancouver Wish Alterations In Renewal Agreement

Ottawa, Ont. A dispute involving 1,100 water front workers in Vancouver and district is to be settled by a board of conciliation under the Industrial Disputes Investigation Act. Hon. Peter Heenan, Minister of Labour, announced the parties involved in the striking Federation of British Columbia and some of their employees who are members of the Vancouver and District Waterfront Workers' Union.

The men with the renewal of the agreement with the employers covering wages and working conditions which expired November 30, 1929, with certain alterations. Two members of the board of conciliation have been appointed. Mr. J. P. Fyfe, of Vancouver, on the recommendation of the employees, and J. E. Hall on the recommendation of the employers.

Mr. Heenan is awaiting word from these two board members as to the setting of a third meeting which will act as chairman.

## French Troops Leaving Rhineland

Frankfurt-on-the-Main, Germany.—Evacuation of the Rhineland has been officially started in this sector of the Rhine zone of occupation. Heavy artillery, pioneer equipment and columns of troops are moving toward Cologne in the final column which will strip the Rhine of French soldiers.

## SUNDAY SCHOOL LESSON

JUNE 1

## CONTRAST BETWEEN FAITHFULNESS AND SLIPPERINESS

Golden Text: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things; enter thou into the joy of thy Lord." Matthew 25:21.

## Explanations and Comments

The Commission Received, verses 14-15. The situation as regards the Kingdom of Heaven and the Kingdom of the Heavens, is comparable to that of a man who has gathered his servants and delivers to each his account, and the servants are to be faithful in the use of the money entrusted to them. His servants, as a lion.

The Commission Received, verses 16-18. The one who received five talents but did not use them, but hid them away, and hid it in the earth. It was a common practice in the East to bury money for safekeeping, but it counted no increase as well as safety.

The Faithful One Received, verses 19-21. After a long time the lord returned and made a reckoning with his servants. The one who had received five talents he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 22-24. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 25-27. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 28-30. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 31-33. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 34-36. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 37-39. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 40-42. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 43-45. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 46-48. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 49-51. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 52-54. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 55-57. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 58-60. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 61-63. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 64-66. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 67-69. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 70-72. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 73-75. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 76-78. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 79-81. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

The Faithful One Received, verses 82-84. The one who had received one talent he reckoned in his words: "Well done, good and faithful servant, thou hast been faithful over a few things, I will set thee over many things."

## Bill Stopping Liquor Clearances To United States Passes Senate

Ottawa, Ont.—Without a recorded vote, the senate gave third reading to the government bill prohibiting the clearance of liquor to the United States. An amendment, moved by Hon. Rufus Pope, to the effect that the bill should not come into effect until proclaimed by the governor-in-council, was voted down by a majority of 20 yeas. The vote was registered for 10, against 20.

## Radio Stations For North

Two Will Be Added To Network Linking Up Arctic With Rest Of Canada

Ottawa, Ont. Involving an expenditure of approximately \$67,000, two low power radio stations are to be established by the Dominion Government in the far north, one at Coppermine, Coronation Gulf, and other at Chesterfield Inlet.

These additions to the network stations linking up the Arctic with the rest of Canada have already been approved by order-in-council, and the work of installation is to be carried out immediately by the Department of Marine and Fisheries.

Decision to establish the coppermine station is timely in view of the influx of prospectors which is anticipated in the district. Both stations will have an important bearing on the successful navigability of the Hudson Bay route.

## R-100 Dies In Salute

Giant Dirigible Pays Homage To King And Queen

London, England.—The R-100, passed over London and saluted the King and Queen. Their Majesties were seated in the Royal Box at the Royal Albert Hall, and the dirigible, which arrived exactly on schedule and dipped its great nose as an act of homage to the Sovereign.

The R-100 stood erect and saluted as the King stood forward for a moment. The dirigible was accompanied by six gliders. One looped the loop as thousands of pedestrians stopped to gaze. Motorists halted their cars, and many heads were turned north.

The dirigible, which arrived exactly on schedule and dipped its great nose as an act of homage to the Sovereign.

Snapped in Hyde Park, London, England, recently, Hon. Barnaby Howard, little son of Lord Strathcona and descendant of the great Canadian who was one of the founders of the Canadian Pacific Railway, was photographed kneeling with his mother, the Hon. Mrs. Arthur Howard. Both children are the links with the great past, what one of the major events in the history of Canada was in the making.

Organized a few years ago by a group of farmers, with Mrs. Bertha Holmes, of Asquith, Sask., as president, the Saskatchewan Poultry Pool handles about 75 per cent of the entire egg production of the province. Last year the Pool turned over \$2,810,184 eggs, valued at \$54,000; \$22,745 pounds of dressed poultry valued at \$184,000, and 29,561 pounds of live poultry at \$24,000, or a total turnover of \$732,000 for the year.

After 15 years of seed planting, the experimental work of the Canadian Government Department of Agriculture has developed sixteen varieties of apple trees suited to the climatic conditions of the prairie provinces. Of these varieties the two have been graded "very good" and four "good."

**A TWO SIDED ELECTION FIGHT**  
 The provincial election campaign in Bow Valley is warming up. From present indications it looks as though the battle will be a two sided affair, with L. P. Schoelling leading the U. F. E. party on one side, and a candidate yet to be named leading the Independents on the other.

Old Liberal and Conservative affiliations have been thrown into the discard, and electors who do not follow the U. F. E. banner have decided to join forces and fight for an Independent. The move is a wise one for those who are not U. F. E. The Farmer party has a strong following in Bow Valley, and with the ranks of the opposition forces divided the U. F. E. would be fairly certain of carrying the Bow Valley seat. But with the non-U. F. E. forces united under the Independent banner the Farmer candidate will have strong opposition, and the Independent candidate will stand a better chance of election than his U. F. E. opponent.

At the last provincial election in 1926 a total of 2341 votes were cast. The vote was divided three ways: Farmer, U. F. E., and Independent. Shaw, Liberal, 896; and Purcell, Conservative, 641. The U. F. E. party commanded a total of only 802 votes as against a total of 1489 by their opponents. There may be a greater U. F. E. vote in this coming election due to the increase in the farming population, and the canalization of farmers who could not vote in the last election. There may also be a decrease in the number of non-U. F. E. votes due to the removal of a section of the constituency at Wayne which has been included in the newly formed Dumfries constituency.

The name of the Independent candidate still remains in doubt until the convention in Bassano on Friday May 29. If a strong leader is chosen one who can command the respect and enlist the support of the non-U. F. E. electors, he will stand a very good chance of winning the Bow Valley seat unless there is a big switch of votes in favor of the Farmer candidate.

**THE TERRORS OF TARIFF**  
 American statesmen are wondering what's going to happen to the United States export trade under the new and lofty tariff walls which Uncle Sam has built for the protection of certain home industries. If the home industries' protectionists who have recently been indulging in an orgy of tariff building thought it was one-sided after they are rapidly being disillusioned.

Thirty-nine countries whose export trade with the United States is seriously affected by the new American tariff walls have raised loud voices of protest. Unable to sell to the American market these countries are looking for markets elsewhere, and they are also spending their money elsewhere for goods which for years they have been buying in the United States. The result is a big slump in American export business, worried exporters, increase in unemployment due to reduction of manufacture for export, and general desolation among manufacturers who feel their industries are being sacrificed for the sake of the by no means certain benefits which the tariff juggle hope to bring in the various branches of agriculture.

Previous tariff boosts have failed to bring prosperity to the American farmer, and it looks as though the present tariff manipulation will not only be of no benefit to the farmer but will be a detriment to other lines of industry.

**TRUTH**  
 (by John Massfield)  
 Man with his burning soul  
 Has but an hour of breath  
 To build a ship of Truth  
 In which his soul may sail,  
 Sail on the sea of death.  
 For death takes toll  
 Of heavy courage, youth,  
 Of all but Truth.

Life's city ways are dark,  
 Men utter by the wells  
 Of the great waters moan,  
 O death, O sea, O life,  
 The waters mean like bells.  
 No light, no mark  
 The soul goes out alone  
 On seas unknown.

Stripped of all purple robes,  
 Tipped of all golden lies,  
 I will not be afraid,  
 Truth will preserve through death;  
 Perhaps the stars will rise,  
 The stars like globes.  
 The ship my striving made  
 May see night fade.

**PAINT UP**  
 The first duty of paint is to protect. Paint must contain the necessary oils for protection as well as color for beauty and to hold the oil.

**POPLARS**  
 (by Mary B. Whiteside)  
 They are the blithe monarchs, there  
 Lombardy poplar trees,  
 Above the lower recumbent larches,  
 They wear their coronals of light—  
 Cool silver in the forest sun  
 And in the audience chamber of the night.

Where courtier aspens so arrayed  
 In all the velvet darkness of the glade,  
 They only wear the diadem of moon.

They are the guardians of the street,  
 Standing from head to foot  
 In armor furnished by the wind that strays  
 In higher ethers and leaves froe  
 On every motionless and bowler tree,  
 While sheltering from the treacherous ways  
 They glow their hearts to thrushes  
 That shall praise  
 A lyric thrush above the listening street.

No being royal, shall they hear  
 The cry of the air  
 Those, that for guests, had little  
 Singing things  
 When armies of the winds pass  
 And all the batteries of the sky  
 Release the shattering charges of the hail.

For those that touched the lyric wings  
 Of life have yet the dauntless hearts  
 Of kings  
 And show at need how wounded monarchs die.

**ONE GOOD RECIPE**  
**MAKES A COOK FAMOUS**  
 The season for fresh berry and fruit pies is so short that housewives should make the most of it while it lasts. Strawberries, blueberries, raspberries, blackberries and others—what luscious pie fillings they provide—what flaky, juicy pies they make. Try this one for a change.

**Unusual Fruit Pie**  
 Line a pie plate with pastry having a fluted rim. Prick well and bake in a hot oven of 500 degrees F. for 10 minutes. Meanwhile heat three eggs and add half cupful sugar, one-eighth teaspoon salt and 2 cupfuls of milk, or 1 cupful of evaporated milk and 1 cupful of water. Turn into the baked pastry shell and bake in a slow oven of 350 degrees for thirty minutes, or until a silver knife inserted in the centre of the pie comes out clean. Remove and cool the pie. Then arrange 2 cupfuls of halved sweetened strawberries or raspberries over the custard and top with 1 cupful of cream whipped and flavoured with half teaspoonful of vanilla extract.

**SCREEN TIME**  
**SCREEN DOORS**—Cedar screen doors, made of selected dried lumber, free from knots; all sizes from 30 inches to 36 inches wide.

### MANY FRIGIDAIRE'S SOLD

All shipment records of Frigidaire Corporation were broken on April 29 when 214 carloads of electric refrigerators left the plants. The best previous day's record was for May 31, 1925, when 121 carloads were shipped. This new office record was established in less than two weeks after the company began a million dollar newspaper advertising campaign to supplement its spring field activity, according to E. O. Biebler, president and general manager. The increased advertising expenditure was predicated upon a record breaking first quarter, a 100 per cent increase in showroom visitors, and a newspaper survey which showed an overwhelming preference on the part of the public for Frigidaire. It was stated.

### GOOD OUTLOOK FOR BEETS

LETHBRIDGE, Alta.—Conditions affecting sugar beet raising in the Lethbridge district are the most favorable in the history of the industry. There are more than 11,000 acres seeded to beets and they have had ample moisture for germination. There will be a lot for about 20 experienced beet workers to cut.

### MANY HORSES USED

TORONTO, Ont.—Statistics that the machine sex is not taking the horses to the slough entirely is given in an official statement that in 1925 the province of Ontario bought over 16,000 horses from the prairie provinces—Manitoba, Saskatchewan, and Alberta: Quebec, 12,563, and the maritime provinces, 4,000, making a total of 26,563. In the six months, April 1 to September 30, 1925, more than 20,000 horses raised in Western Canada, were sold in the eastern provinces.

### AIRPLANES IN NORTH

EDMONTON, Alta.—Aerial survey of the far north; inspection work by three field parties under direction of the Department of Interior, consisting of a branch office at Fort Smith, manned by a staff transferred from Winnipeg and The Pas, were announced here the other day. An Airplane base is to be established at Fort Resolution, arrangements having been made by the Department of Interior with the Royal Canadian Air Force. This will be utilized to facilitate important survey work which will be carried out by the Federal Government.

### Pontiac Car Gains Splendid Reputation

Since the Pontiac car was put on the market a few years ago by General Motors it has gained an enviable reputation as a strong, sturdy, comfortable car. The Pontiac was created to meet the public demand for a moderately priced automobile possessing many of the features of a high priced car. General Motors engineers have achieved remarkable success, and the creation of the Pontiac has met this demand. The Pontiac is equipped with four wheel brakes, heavily reinforced shock absorbers, bumpers and bumperettes, powerful six cylinder motor, front and rear spring covers, and many other big car mechanical refinements. It has power, speed, hill climbing ability, riding comfort and road flexibility, and added to this the Pontiac is a fine looking car priced at a moderate figure.

### TREATMENT FOR COUGH GRASS

(Experimental Farm Notes)  
During the past few years, many methods of combating couch grass have been evolved. Most of these have their merit, but are limited only to particular soils or conditions. The general principles involved in each one are the same, namely, smothering or starving and dragging out.

Before starting either method the plants should be weakened as much as possible. This can be done by cutting as soon as needed, plowing about three inches deep and back setting in September or by plowing shortly before freeze-up in the fall and leaving on the rough surface. Plowing in the summer and back setting has proven successful as a means of killing bromus grass at the Dominion Experimental Station, Rothamsted, Sask., and will kill out much of the couch grass.

In smothering or starving all growth above the surface of the soil must be kept down for at least one season. This method is best suited for small patches. Covering with tar paper or regular cultivation is necessary for this treatment. Care must be observed to clean implements of all roots before moving them onto clean soil.

In the dragging method, the land is cultivated in order to drag the roots to the surface where exposure to the sun and wind will eventually kill them. A spring tooth cultivator with wide spaced teeth is best suited for this purpose. In this method of eradication cultivation should start as soon as the farmer has time in the spring and continue until all roots have been exposed. In badly infested fields it is sometimes necessary to remove the roots by taking and burning off or by plowing down after they have been exposed long enough to be killed. Cultivation can then be continued if all plants have not been killed.

It is well to follow such treatment with a crop of fall rye if the cultivation is completed early enough or with a thick sowing of barley or oats after plowing the following spring.

### Here and There

(228)

The new hotel in course of construction for the Dominion Atlantic Railway at Kentville, N.S., will be completed this fall and is expected to open shortly before Christmas. It will replace the present town hall while retaining the name, will have two bedrooms, ballroom and assembly hall, main dining room, rotunda, billiard room, card room and usual offices, and will be a notable addition to the list of new and up-to-date hotels in the Maritimes.

No widespread or general depression exists in Canada through several factors, notably the failure to market our grain and the loss in buying power resulting therefrom, have contributed to a showing-up of traffic, declared E. W. Beatty, chairman and president of the Canadian Pacific Railway, addressing the shareholders of the company at the 49th annual meeting held early in May. He added that there was nothing of a fundamental character which should prevent the return of normal business conditions within the next few months. Mr. Beatty said, "We have all been hopeful that the first and perhaps most essential change both because of its psychological as well as its commercial effect, namely, the free movement of grain out of the country, would be in evidence during this or next month."

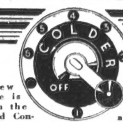

At the annual meeting of the Canadian Pacific Railway Company held early this month dividend of 1 1/2 per cent, on common stock for quarter ending March 31 last, was declared from railway revenues and special income, payable June 30 next to shareholders of record May 29. R. S. McLaughlin, of Ottawa, president of General Motors of Canada, Limited, was elected to the board of directors.

Extra  
Strength  
and  
Mileage

Every fibre insulated with rubber

BENEATH the rugged safety tread of toughest rubber, Firestone Tires have the strongest, most durable cord construction ever known. Layer upon layer of cords are scientifically twisted for greatest strength and elasticity—then dipped in pure rubber which protects every fibre against internal heat and friction. Gum-Dipping doubles flexing life and adds thousands of extra miles of dependable, trouble-free service. Only Firestone Tires are Gum-Dipped—No other tire has its advantage. Because of this extra process, Firestone tires hold all world records for mileage and endurance.

## Canadians Have Much To Learn About Vast Empire Being Developed In North

So vast is the Canadian heritage and so numerous are the points offering promise of great and continuous development, that it is the most auspicious of newspaper readers to keep in touch even with his own province. For every distinct information he is dependent on 74 motor sources and therefore has all the more reason to appreciate editorial and other articles outlining what is being done in districts that are only in process of being opened to the light of day. Recently the Lethbridge Herald touched on the development of the Alberta Northland and remarked that as this is proceeding so fast, British Columbia's great block of land east of the Rockies is coming in for a lot of attention. Speaking recently of the possibilities of this region, it quoted Hon. P. J. Lacombe, Minister of Lands of that province, as saying that the section had one of the best bodies of coal on the continent and according to coal authorities it was the only coal on the continent that would smelt without coking.

In close proximity, Mr. Lacombe said, was a great body of iron ore. In years to come, he believed, a great steel and iron industry would be developed and would create a big demand for the agricultural products of the district.

There were also other minerals, the minister said, and suitable hydro development at that spot.

The Herald repeats its view, previously expressed that in the vicinity of the head waters of the Peace River and where they cut through the backbone of the continent on their way to the Arctic, is contained a vast empire of wealth such as few Canadians ever dream of. Here are to be found valuable commercial timber and pulpwood. The "rounding" country in which the late Lord Blandford was interested is in that area. Close by there are said to be mountains of iron, which are also stated that such as rich as the Sullivan at Kimberley may be developed. And with it all there is the Peace River Canyon, a water power capable of developing within a 12-mile stretch something like 1,500,000 horsepower.

While there is so much talk of a coast outlet for the Peace River country, it is well to bear in mind that the development of the mining, lumbering, pulpwood and hydro power possibilities along the Peace River and host waters, is practically certain to open up a route through the northern section of British Columbia. Somewhere along the course of that route will be a railway, and situated upon it, close to the Pacific, and closer to the Orient than any other British Columbia city, will be a modern city founded upon the wealth of resources in that area.

We really know very little as yet, the Herald says truly, about the great northland which, in a few years, will be pouring its treasure into the world's markets and bringing back new wealth to Western Canada.

### Settlers Are Keeping Ahead Of Railways

**Settlers in Northern Saskatchewan Rapidly Filling In**

Settlers are still keeping far in advance of the railway in the opening of the north.

For the past 10 or 12 years, good crops have been grown in the Meadow Lake district, 10 miles north of North Battleford, and the growers have banded their grain 50 miles to the nearest railway line.

This year the Canadian Pacific Railway is building a line through the Meadow Lake area but Meadow Lake is no longer the frontier town.

Every week hay-racks containing settlers' effects are to be seen ferrying the Beaver River, 20 miles north, making for a district on the other side which is rapidly filling up.

She: "I am so glad to meet some body. Where shall I find a husband?"—*Edna's Mother, Lethbridge.*

### Britain Acclaims Canadian Wheat

**Sir James Dunn Says Manitoba Product Makes Best Bread**

All who are interested in Empire Free Trade should make it their duty to demand an "Empire Loaf"—made of wheat flour produced in the British Empire—and popularize it among their friends, says Sir James Dunn, in a letter to the London Evening Standard.

Sir James, a native of Bathurst, New Brunswick, and now a prominent lawyer and husband of the Marchioness of Queensbury, says that apart from any question of imperial sentiment, the Empire loaf, consisting of 85 per cent. Manitoba wheat, is the best bread in the world.

His own researches into the relative nutritive values of Canadian and competitive wheats have shown the Manitoba wheat produces a bigger and lighter loaf, which gives greater nourishment than bread made from any other flour, he says.

**Clean Soil In Rum Necessary For Growing Chickens**

"Clean soil in the rum is the one sure and preventive for the most destructive poultry disease, intestinal parasites," asserts the Poultry Husbandman of the Dominion Department of Agriculture. And practicing what he preaches, the poultry man at the Central Experimental Farm have been frantically plucking and cleaning their flocks. It is under way on the rum used last year. A succession of food, grain and green crops is used to remove all possible infection from intestinal parasites. Poultry should always be kept on clean and especially on green chicks, and crop rotation on the poultry run is the most effective way of eradicating the dirt to do the trick.

**Increase In Plant Imports**

**Canada Reluctant To Expose Her Parks And Gardens**

Canada's appreciation for the aesthetic value of parks and gardens is reflected in the increasing importation of trees, shrubs, plants and bulbs. In 1919, the Plant Inspection Service of the Dominion Department of Agriculture examined 10,400,000 plants, and in 1920, 11,000,000. The plants are mostly from the United States, Canada, France, Germany, Holland, Belgium, and the Netherlands. The plants are mostly for the purpose of increasing the number of plants in the parks and gardens.

**Carlson Comes In Cyclon**

At a General Assembly of the active members of the Cyclon Club, held in the city of Regina, the club members presented a report on the work of the club during the past year. The report was read by the president, Mr. J. H. Carlson, and was well received by the members. The club has been very active during the past year, and has been successful in many of its projects.

Style No. 3279 is distinctly smart in navy blue and wool crepe in dark plum tones. The shawl collar is of plain fault crepe in blending tone, while the vest shows white piping.

It is designed in sizes 16, 18 years, 20, 22, 24 and 26 inches bust.

It's a model that makes up most of the two surfaces can be nicely worked out for contrasting effects. The dark brown shade is especially popular.

Black silk crepe with eggshell vest is chic for all-day occasions and is favorite with smart women.

Pattern price 25 cents. Has size in full size of pattern. Address: Pattern Department.

### Rice Growers To Complete

**British Columbia May Have Exhibit At World Grain Show**

In all probability rice growers from British Columbia will be represented in the competitive classes at the World's Grain Show, according to a letter received at the exhibition office, Regina, from Sydney, director of the Department of Agriculture, Georgetown, British Columbia.

The compilers of the prize list for the 1922 World Grain Exhibition designed to make it as attractive as possible to the growers of all countries. For this reason, apart from the fact that the cash awards offered are higher than have been offered ever before, the classification embraces practically all of the grain and seed crops cultivated the world over.

The rice growers of British Columbia, one of the smaller parts of the British Empire located in the tropical regions of northern South America, are showing a keen interest, and according to news received at the World Grain Show office from Mr. Dash, exhibits of rice may be expected from that country in connection with the exhibition. Mr. Dash says that he hopes this coming will be able to take part in your exhibition and conference to be held in 1922. I shall be glad to see that rice growers may have the opportunity to participate.

### For Healthy Poultry

**Clean Soil In Rum Necessary For Growing Chickens**

"Clean soil in the rum is the one sure and preventive for the most destructive poultry disease, intestinal parasites," asserts the Poultry Husbandman of the Dominion Department of Agriculture. And practicing what he preaches, the poultry man at the Central Experimental Farm have been frantically plucking and cleaning their flocks. It is under way on the rum used last year. A succession of food, grain and green crops is used to remove all possible infection from intestinal parasites. Poultry should always be kept on clean and especially on green chicks, and crop rotation on the poultry run is the most effective way of eradicating the dirt to do the trick.

### Government Farms Are Busy

**Extensive Research Carried Out By Dominion Department Of Agriculture**

An appropriation of the range and extent of applied agricultural research carried out by the Experimental Farms and Stations of the Dominion Department of Agriculture throughout Canada is afforded by the report of the Director, Dr. E. S. A. Chubb. At the time the report was prepared, there were 123 active farms, 621 active experimental projects in 1921, 621 active experimental projects in 1922, 621 active experimental projects in 1923, 621 active experimental projects in 1924, 621 active experimental projects in 1925, 621 active experimental projects in 1926, 621 active experimental projects in 1927, 621 active experimental projects in 1928, 621 active experimental projects in 1929, 621 active experimental projects in 1930, 621 active experimental projects in 1931, 621 active experimental projects in 1932, 621 active experimental projects in 1933, 621 active experimental projects in 1934, 621 active experimental projects in 1935, 621 active experimental projects in 1936, 621 active experimental projects in 1937, 621 active projects in 2541, 621 active experimental

As farm management and costs are among the many subjects to be thoroughly discussed by experts from many countries at the World's Grain Exhibition and Conference at Regina in 1929, the reference to it made by P. O. Blford, president of the World Poultry League Association, has added importance. Speaking at Saskatoon recently Mr. Blford said that while in Bulgaria he had found more high priced scientists than in any other country. These men were working in their laboratories and at their studies upon one principal objective, that of discovering ways and

means of reducing the cost of production. "Let Canada," he said, "at once cut out waste, waste which would feed whole families in Europe, waste if which continued indefinitely will result in her inability to compete in the markets of the world."

**DECEASED THORNTON**, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 14th July, 1929, for the conveyance of His Majesty's Mails on a proposed Contract for a period not exceeding four years twice per week on the route Gem Rural Route No. 1 (proposed) from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Gem, Alta., and at the office of the District Superintendent of Postal Service.

**J. B. CORLEY**, District Superintendent of Postal Service, District Superintendent's Office, Calgary, 26th May, 1929. 47-48-2

## Local News

**A. T. Connolly** made a business trip to Calgary on Tuesday.

**Dr. and Mrs. W. F. Keith** were in Calgary over the holiday week-end. **Irvin Garveth** spent the week-end in Calgary.

**Mrs. W. L. Flanagan** is visiting in Medicine Hat this week.

**Miss E. McArthur** spent the Victoria Day holiday and week-end at her home near Innisfail.

A baby girl was born to Mr. and Mrs. W. E. Sambrone on Sunday, May 25.

Several carloads of Bassano people took in the Hussar stampede last Saturday, May 24.

**Mr. and Mrs. C. H. McMillan** spent week-end with relatives in Calgary.

**A. P. Thompson, C. P. R.** division superintendent, went to Sylvan last Saturday.

**Dr. W. F. Keith** is ill with pneumonia. He is a patient in the Bassano Hospital.

**Miss Frances Lalor** was the guest of Mrs. Ralph Robson in Gem last week-end.

**Dr. D. Lawford**, of Calgary, visited in Bassano over the week-end with his brother, Dr. Geo. Lawford.

**Miss Lillian Hayes**, of Calgary, spent the week-end in Bassano with her sister, Miss Gladys Hayes.

**Paul Holmes** came home from London for the Victoria Day holiday.

**Mr. and Mrs. H. W. Coleman** and family returned down from Calgary a spend last week-end with Mr. and Mrs. F. Pagnell.

The W. A. of the Anglican Church will hold a whist and bridge party in the Oddfellows' Hall, Friday evening of next week, June 6.

The W. I. held a very enjoyable evening of cards and dancing in the Oddfellows' Hall Wednesday evening. A considerable sum of money was raised for the benefit of cemetery improvement.

**Rev. and Mrs. P. C. McVee** and children motored to Crossfield on Tuesday and spent a few days visiting with friends there.

**Artie Simpson** and **Jakes Bulmer** played baseball for Queenston in the tournament at Chatham last Saturday. Queenston won the tournament.

The Women's Institute will hold their regular meeting in the Odd Fellows' Hall next Tuesday afternoon, June 3. Dr. Geo. Lawford will address the gathering. Everybody welcome.

#### Not Half Stript

During the hearing of a case the judge was disturbed by a youth who kept moving about in the rear of the court.

"Young man," he exclaimed, "you are making a good deal of trouble here now. What are you doing?" "I have lost my overcoat and am trying to find it," replied the offender. "Well," said the judge, "people often lose whole suits in here, without all that fuss."

#### STEELDRUM BRAKES ON NEW DURANT FOUR

Many favorable comments are being heard these days regarding the roadability of the new Durant Four, which was recently offered to the Canadian public by Durant Motors of Canada Limited.

One of the outstanding features of the new car is the steel-drum braking system. Not only one but two generated this type of brakes. It is possible to gain a true conception of their efficiency, smoothness, and positive action. In decelerating the car rides "flat" and smooth and before going very far in congested traffic the driver is induced with a feeling of absolute confidence and security.

Steeldrum brakes combine the irresistible action of the wedge with the smoothness of the cam. They are self-energizing, quick and powerful and give trouble-free service. The mechanism is enclosed and fully protected from mud, sand and water. The new four is also becoming popular as an exceptionally easy riding car, due reason for this is the smooth, "velvety" action of the two-way hydraulic shock absorbers. The new two-way principle, which is an integral part of the spring action, absorbs road shocks, prevents rebounds and helps to make motoring more comfortable and enjoyable.

## WORLD'S GRAIN SHOW

The conference feature of the World's Grain Exhibition and Conference at Regina in 1932 is of particular importance to the producers of crops and research workers the world over. The greatest and best known experts from all countries will be gathered together for the purpose of giving their experiences and leading discussions. The goal will be that all come of such a gathering cannot be estimated.

In addition to the exhibition of seed in competition for each prize many interesting agricultural exhibits of an educational and commercial character will be shown representing practically every part of the world.

The out section of the prize list is divided into three classes: (1) while, medium or late; total cash prizes \$15,000. Fifty prizes graded down from the first prize of \$2,500 to \$50 for the fifth prize. (2) yellow, medium or late; total cash prizes \$7,500. Fifty prizes graded down from the first prize of \$1,250 to \$25 for the fifth prize. (3) early; total cash prizes \$5,000. Forty prizes graded down from \$1,000 for the first prize to \$10 for the fourth prize. Each exhibit must bear variety name and consist of 30 pounds.

## Few Farmers Are Millionaires

But many of them are making enough for a good living, and to enjoy life. The Milk Cow is doing this much for these farmers. The cream cheque goes a long way toward paying the family expenses.

We give fair and accurate grading, and pay market prices.

## The New Durant Four

Durant, Four Cylinder, Standard Sedan Model "407"

APPEARANCE  
PERFORMANCE  
COMFORT  
VALUE

ADVANCED engineering principles applied to the new Durant Four give it riding and driving qualities comparable only to automobiles of much higher price.

Smooth, light-pressure "steeldrum" brakes provide maximum safety, double action hydraulic shock absorbers assure riding comfort, while the sturdy chassis, large four and rear axle, deep, comfort-shaped cushions and ample interior roominess make even the longest journeys a pleasure.

Go now to your Durant dealer for details which will supply without obligation.

# ? Are YOUR Children PROTECTED ?

During the Year 1928  
DIPHTHERIA Was Responsible for 50 Deaths  
and  
TYPHOID FEVER Was Responsible for 28 Deaths  
of Alberta Citizens

94% of the deaths from DIPHTHERIA occurred among children under 15 years of age

There Need Not Be a Single Death in the Province from Diphtheria, Typhoid Fever nor Small Pox

Science has placed in our hand the means of wiping these preventable diseases out of existence.

The vaccines required for this purpose are furnished FREE OF CHARGE to all physicians and local Boards of Health in the Province by the Provincial Department of Health.

It is the duty of local Boards of Health to prevent epidemics starting, and the most effective method of doing this is to

Protect the Children of Our Province from These Preventable Death-Dealing Diseases

What has been done for the protection of the children of YOUR community?

Is YOUR community safe for your children?

The Provincial Department of Health issues Bulletins and pamphlets giving information and advice on how to secure a large measure of health and how to safeguard life in your community. Copies of these publications may be obtained on application to the Department.

## WORLD HAPPENINGS BRIEFLY TOLD

William J. Locke, widely known British novelist, died in his Paris home, May 18 after a long illness. He was 77 years old.

Hon. W. J. Major, attorney-general, will represent the Manitoba government at the millennial celebration of parliamentary government in Iceland this summer.

The Federal Government is seriously considering a proposal strongly advocated by Hon. D. G. McCrear, while here the granting of pensions to the blind.

Through the British embassy at Warsaw, Poland has accepted an invitation to send an official representative to the World Grain Exhibition and Congress to be held in Regina in 1932.

There are more people in the world now than ever before in the history of mankind, figures compiled by the International Statistical Institute show. The total was given as in excess of 2,000,000,000.

What was believed to be a world's record for grain parachute jumping was set at Roosevelt Field, N. Y., recently, when 20 men jumped and landed safely from a Curtiss Condor plane, 2,500 feet above this field.

In recognition of thirty years spent in Seattle in the service of his country, Bernard Polley, British Consul, was presented with the Order of the British Empire. The presentation was made by E. G. Cable, British Consul at Portland.

During the present crop year Saskatchewan Pool Elevators, Limited, have handled 87.2 per cent. of all Pool grain delivered in the province, which is the highest percentage that the organization has handled in any crop year to date.

Max Valier, German pioneer in rocket motors, was fatally injured while working on a model of a new liquid oxygen rocket. A piece of the recoil motor blew out and struck Valier in the neck. His leg was also severed.

## Uniform Codes For Pilots

Necessary For Aviators Flying Over Border Between Canada and United States

Aviators flying over the Canadian border from either side, will be assured of uniform signal codes, in the near future.

Officials of both countries conferred at Washington, recently, for the purpose of preparing the basis for a working agreement under which aircraft crossing the border will be assured that the same system of communication of direction-aid signals on one side or on the other, will be sought. It is explained, may be considered a uniform code of traffic rules for the air, such as is being worked out for automobiles.

The airways of the United States and Canada are rapidly being linked up, and there is already considerable routine flying from the United States into Canada and return. In order to secure a maximum of safety in these flights, it is essential that the system of communication and radio aids to air navigation used on the Canadian airways be co-ordinated with those used on the United States routes that lead across the border.

## How They Saw It

Two elderly ladies arrived in the New York Grand Central Terminal the other evening and caught sight of the airplane Bremen up on the balcony. This was apparently their first view of an airplane at close range. They studied it for a while in awed silence, then one of them spoke, in the accents of discovery. "It's built on the plan of a bird," she said.

Fond Father: "The man who marries my daughter, sir, wins a prize."  
Guest: "My word, that is a novel idea! Is it a money prize or just a silver cup?"

NO LONGER SUFFER...  
Pain in the back, neck, shoulders, arms, legs, and joints...  
This is a new and revolutionary method of treating all these ailments...  
It is a simple, safe, and effective method...  
It is a method that has been used for centuries...  
It is a method that is now being used by the world's leading experts...  
It is a method that is now being used by the world's leading experts...  
It is a method that is now being used by the world's leading experts...

## Plan To Encourage Community Progress

Canadian National Railway Will Give Prizes For Competition

Plans which seek to provide a substantial contribution to the economic development of the country, and the attainment of the fullest possible measure of Canadian citizenship by those rural communities in Western Canada which are of European origin, have been developed by an announcement just made by Sir Henry Thornton from the head offices of the railway company at Montreal.

These plans initiated and developed by Dr. W. J. Black, director of the Department of Agriculture and Colonization, of the National System, involve the carrying out of a series of competitions among such communities in the three provinces, Alberta, Saskatchewan and Manitoba, to be held annually for a period of five years, for which one set of three prizes will be awarded to each province each year. These prizes will be substantial, the first being \$10,000 the second \$5,000 and the third \$2,500. They will be awarded on the understanding that the money be utilized in community work of some progressive nature. It is stated that the competitions commence this year.

The Departments of Agriculture and Colonization, of the National System, will assume the responsibility of conducting the competitions, but hearty cooperation and support in the scheme has been offered by various departments of the provincial governments which have chiefly to do with matters of rural citizenship, progress and welfare. Leading men and women in western life are anticipated that the prizes will be of great importance and approval. For the purpose of the competition, in each province, a committee of three outstanding citizens will be selected.

It is proposed to confine the competitions to rural municipalities, or groups of school districts within municipal limits, in which the population is made up of people of continental European origin, first or second generation. It is recognized that the interest which these people take in co-operating to make effective the policies of such departments of government as have to do with agriculture, education and public health, may be regarded as an index of the people to the advantages of what the Dominion provides towards influencing their status as good citizens. It has, therefore, been decided that emphasis shall be placed upon the things which these departments regard as of greatest importance. Consideration will be given to such matters as percentage of school attendance, efficiency of the school, percentage of young people attending secondary schools, percentage of university students, evidence of interest in matters relating to public health and social welfare, percentage of membership in farmers' organizations, such as the co-operative marketing pools, agricultural societies, women's institutes, etc., and evidence of general progress towards improvement of agriculture methods, throughout the particular community or area involved. Special consideration will be given to evidence of community interest in music, arts and handicrafts. In respect to all this, the competitions will take into consideration the full calendar year and awards will be made at the end of each year. In discussing the prizes, Dr. Black said: "It is recognized that the people in a great many of the communities of European origin in the prairie provinces of Canada, have been showing an exceedingly fine interest in making full use of the facilities and influences which in agriculture, education and otherwise. It is the desire of the railway company, in undertaking to direct these competitions for a period of five years, to give encouragement to such communities as are showing a determination to make use of and emphasize to the fullest extent the best that our country provides in the development of citizenship."

London's Privilege  
A privilege which belongs to the City of London is that its maces and its sword may be carried upright. This privilege was granted to the city in 1354, and where other corporations show their maces and their swords, the City maces may be carried upright, and the City sword generally are so borne, in the same way as the State sword is borne before the King, as an emblem of sovereignty.

City Man: "My tailor will be here in half an hour."  
Office Boy: "Yes, sir. Shall I ask him to wait?"  
City Man: "Certainly not! What do you suppose I'm going out for?"

Friendly Millionaire (to his chauffeur's little son): "Do you know who I am?"  
Boy: "Yes, you are the gentleman who sometimes is allowed to go in daddy's car."

(By Anabelle Worthington)

3265

The tailored one-piece frock, in printed wool crepe lengthened with a skirt, is a copy of an older frock of similar character. It has a crisp pink collar and is belted at normal waistline. Inset pockets are placed at either side below the waistline.  
Style No. 3265 is as comfortable as it is smart, and so easy for the little miss of 8, 10, 12 and 14 years to slip on in the morning. It is suitable for many of the season's new fashions, as faced in brown and yellow, light pink collar and trim. Tweed-like collars, printed pink crepe de chine, plain and checked gingham and wool challis prints are appropriate.  
Pattern price 25 cents. Be sure to fill in size of pattern. Address: Pattern Department.

Preference From Bermuda

A reference to Canada on agricultural produce and on fish has been granted by Bermuda, according to a telegram received by the prime minister from the Hon. R. B. Black, Speaker of the Legislative Assembly of Bermuda.

Friendly Millionaire (to his chauffeur's little son): "Do you know who I am?"  
Boy: "Yes, you are the gentleman who sometimes is allowed to go in daddy's car."

## Fast Train Service

Has Been Inaugurated By Canadian National Between Toronto and Vancouver

A new fast train service between Toronto, Winnipeg and Vancouver was inaugurated by the Canadian National Railways when The Confederation went into service westbound from Winnipeg to Vancouver May 18.

Westbound between Winnipeg and Vancouver, The Confederation which will operate via Regina, Saskatoon and Edmonton, will be two hours faster than the schedule on which it operated last year, and there will be a further saving of one hour in the time between Toronto and Winnipeg, or a total saving of three and one-half hours in the complete journey. Eastbound from Vancouver there will be a saving of two hours and forty-five minutes between Vancouver and Winnipeg, and a saving of forty minutes between Winnipeg and Toronto.

In leaving Toronto the westbound Confederation makes a connection with the new fast International Limited from Montreal. This latter train leaves Montreal at 3 p.m. daily, and makes the trip to Toronto in six hours and is the fastest train in the world over the same distance. By using it, and The Confederation, a saving of 13 hours can be made in the time between Montreal and Vancouver, as compared with any existing service over the Canadian National Railways, between those two ports.

The schedule of The Confederation calls for the train to leave Toronto at 9:30 p.m. daily, with an arrival at Winnipeg at 8:15 the second morning. It leaves Winnipeg at 8:45 a.m., Regina at 5:50 p.m., Saskatoon at 10:50 p.m., Edmonton at 8:30 a.m., Jasper at 3:10 p.m., and arrives at Vancouver at 1:30 a.m.

Eastbound the time of departure from Vancouver is 1:35 p.m., Jasper 9:50 a.m., Edmonton 5:06 p.m., Saskatoon 2:01 a.m., Regina 6 a.m., and the arrival time at Winnipeg 5:28 p.m. daily. It leaves Winnipeg at 6:20 p.m. and arrives at Toronto at 7:20 a.m. the second morning. Under the new schedule as compared with that of last year a morning arrival is made at Vancouver, and an afternoon departure. Last year the train did not arrive until the afternoon and left east bound in the morning. The new schedule makes this one of the fastest trans-continental trains on the continent.

## Gift From Halifax To France

A shipment of seven apple trees from Annapolis Royal to Paris, was made the other day in the form of a gift from the French Consul at Halifax, Mr. Lafranchi, to Aristide Briand, Minister of Foreign Affairs for France. The consul expressed his belief that the French Minister would like to have this gift from the seat of the oldest French colony in North America.

## Canadian Apples For Orient

The Provincial Government, through the marketing branch of the Department of Agriculture, plans to exploit the Orient more actively as a market for Canadian apples, following advice received from Hon. Herbert Marcle, Canadian Minister to Japan, to the effect that trial shipments of British Columbia apples had made a splendid impression in several of the larger cities there.

"Brighter, it always seems to me that the unkindness mistakes get the best looks," said a woman.  
"Ah, my dear, on mid west your blarney."

## DON'T SUFFER WITH DANGEROUS INDIGESTION

Do you suffer after meals with a heaving, from sour and acid stomach? Many believe they have heart trouble, and are taking medicine, and so waste time and money. This condition can be prevented. Take Carter's Little Liver Pills after meals and neutralize the gases. These pills are so gentle and so effective, they relieve the gas and encourage digestion. The stomach, liver and bowels will be cleansed of poison, painful and dangerous indigestion disappears and the system enjoys a tonic effect. Don't delay. Ask your druggist for a 25c pill of Carter's Little Liver Pills.

## Recipes For This Week (By Betty Barclay)

### TOMATO RELISH

3 cups (1 1/2 lbs.) cooked tomatoes and onion.  
6 1/2 cups (2 1/2 lbs.) sugar.  
1 bottle pectin.

Scald, peel, and crush tomatoes. Boil 4 cups crushed tomatoes (fresh or canned) 10 minutes, uncovered, stirring occasionally. Add juice and grated rind of 1 lemon. Measure cooked mixture into large kettle. Add sugar, mix, and bring to a full rolling boil over hottest fire. Stir constantly and while boiling, add pectin and 2 minutes. Remove from fire and stir in pectin. Rinse; pour quickly, never hot, with film of hot paraffin; when relish is cold, cover with 1/4 inch of hot paraffin. Roll glass to spread paraffin on sides. Seal very airtight. Requires about 2 1/2 pounds tomatoes. Makes about 8 eight-ounce glasses.

For plain tomato flavor, omit lemon and use only 2 1/2 cups bottled-down tomatoes. For use with meats, add 1/2 teaspoon each of ground allspice, cloves and cinnamon.

### ROLLED ORANGE WAFERS

1 cup butter.  
1 cup sugar.

Grated rind 1 orange.  
1 teaspoon soda.  
1 tablespoon cold water.  
1/2 cup orange juice.  
2 cups flour.

Cream butter; gradually add sugar and orange rind, beating until light; then add sugar in cold water; add orange juice, then add, alternately with flour, to first mixture. Spread mixture on well-buttered sheet in the thinnest possible layer, and bake in a moderate oven. When baked, cut in squares; quickly roll each square, while hot, over handle of a wooden spoon, and arrange on a oiled-covered plate.

"It is my ambition," says an artist, "to paint a vision of beauty that is too wonderful to be realized in this life." He is just the man to design the labels on flower seed packets.

Rains in London were so heavy this winter that some wood pavement streets were impassable for several days.

## Perpetual Ocean Travel

Plan Of Philadelphia Broker Has Much To Recommend It

There is something to be said for the plan of the retired Philadelphia broker, who has taken up permanent residence on board an ocean liner. The manœuvre is not so monotonous as a landlubber might suppose, and the accommodations on one of the larger vessels are fully equal to those available at a first-class hotel. At times, of course, the winds may roar and the waves may roll. But anyone accustomed to the behavior of the market will scarcely mind a little fluctuation now and then.

The opportunities for golf and horseback riding may be limited. But it is usually possible to organize a game of shuffleboard among the passengers. And a permanent passenger, particularly one trained in the brokerage business, should soon be able to estimate the ship's run with such accuracy as to win the pool every day. His outfit, indeed, to make a very good one of it. There is only one serious drawback to the plan. Has the Philadelphia broker considered having to listen for, and ever, to his fellow-passengers' boasting of the number of times they have crossed the Atlantic?

## Greater Demand For Wool

Mills Receiving Larger Quantity Than For Some Months Past

While it is a little earlier in the season as yet to forecast prices for the 1930 wool clip, the Dominion Live Stock Branch reports that wool prices have sagged consistently to lower levels since January 1, and present price indications are that local buyers will be offering around eight to ten cents per pound for ungraded wools.

With prevailing price levels mill buyers show an inclination to operate in a more extensive scale and a larger volume of wool appears to be moving into the mills than for several months past. The 1930 clip of Canadian graded wools will not be expected in any large quantities until the latter part of May or early in June, and it is not possible as yet to indicate what prices will be paid for these.

## Planning New Drigible

British R-102 Will Be Faster and Larger Than the Others

Britain shortly will build a third giant dirigible for regular trans-Atlantic service, it became known. The ship will be called the R-102; the others being the R-100 and R-101. It is to be larger, faster and more economical than the others. The plans for the R-102 were said to be in the hands of the designers. Reclamation of 1,096 square miles of land of The Pas, Manitoba, is planned.

Ships of 24 nationalities carried their goods through the Panama Canal last year.

## New Use For Wheat

Light Crop Can Be Made Profitable By Feeding To Poultry

With the grain shortage which prevails in the wheat-raising Dominion Department of Agriculture finds that farmers are paying more attention to the marketing of grain crops through live stock. Some important and interesting results have come to light, and not the least interesting is the experience of an Alberta farmer who had a light crop which he could not sell at the elevator. He had a flock of poultry and started feeding the wheat to them and marketing it in the form of eggs through the local egg pool. When the winter was over he figured up his costs and found that he had sold the wheat thus fed at an average price of 15 per bushel. Another western farmer with a modest flock of 150 birds kept his family throughout the winter on the income from the eggs, and he states that his gross income for the winter from the flock averaged \$200 per month.

## Good Revenue From Map Sale

One hundred and fifty-one maps of Canada have been made by the topographical survey since 1917, according to House of Commons recently, and the cost of compiling these maps was \$800,000.

The largest area surveyed was in Manitoba, where 98,247 square miles have been surveyed. The revenue derived from the sale of these maps since 1924 amounts to \$16,500.

## French Ministers Interested

The details of the world exhibition and conference to be held in Regina, in 1932, be sent to over 100 prominent residents of France, was requested by officers of the exhibition. A number of those whose names were submitted are deputy ministers of France.

EVERY BIRD LOVER should have this new edition of the "Birds' Book on Birds" - a book on the care and feeding of cage birds and the raising of young birds. It is a book that every bird lover should have. It is a book that every bird lover should have. It is a book that every bird lover should have.

# Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

## WINDOLITE

THE ORIGINAL GLASS-SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, with withstands changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

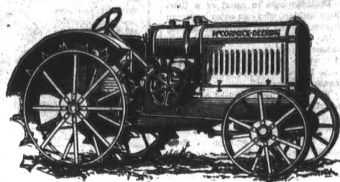

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness, but 35 inches wide only.

Distributors: JOHN A. CHANTLER & CO., LTD. 61 Wellington St. W. TORONTO, ONT.

USE WINDOLITE IN BROODER HOUSES LAYING PENS DAIRY BARN SUNKROOMS ETC.

## McCormick-Deering Tractors

**Make  
Power  
Farming  
Profitable**

Power farming has become recognized as a means of increasing farm returns through lower production costs. Successful farmers speak highly of their tractors which permit more days and longer days in the field, when necessary—tractors which are dependable under adverse weather conditions and supply economical power.

McCormick-Deering tractors are the result of over twenty-five years of successful tractor building experience. They are practical power units for everyday farm conditions. They provide the maximum amount of service and economy of operation.

The new McCormick-Deering 15-30 tractor has greater reserve power and increased economy as the result of improved features which have been added. This powerful unit, together with the complete line of McCormick-Deering power-operated machinery, places the western farmer in a position to compete with any grain growing section in the world. The increased power of this new tractor enables you to plow, till, drill, summer-fallow, and harvest faster, better, and at less cost than ever before.

The owner of this tractor has a ready source of power on the belt or power take-off.

### Local News

The Girl Guides will hold a tea on Saturday afternoon, May 24, at the Oddfellows' Hall, from 3 till 5 o'clock. The proceeds will go toward the fund for the summer camp.

Tuesday, June 3, is King George's birthday. The banks and the post office will observe the day as a holiday, but the stores will remain open.

Mrs. E. Hinds, who has been a patient in the Bassano Hospital for the past few weeks, is very much improved. She expects to leave next Sunday for the home of her daughter Mrs. Wm. Buchanan, Retlaw.

C. E. Walters, of Maplewood, is a patient in the Bassano Hospital. He is ill with pneumonia.

### HITS

The following births have been recorded at the Bassano Hospital:  
A daughter, to Mr. and Mrs. S. Sandrum, of Hussar, on Tuesday, May 20.

A son, to Mr. and Mrs. A. J. Seltor, of Queenstown, on Friday, May 23.

A daughter, to Mr. and Mrs. S. Jensen, of Chancellors, on Thursday, May 22.

A son, to Mr. and Mrs. L. Leander, of Hussar, on Thursday, May 23.

### Discard August 4th As Election Day

OTTAWA, May 23.—The government this week rejected August 4 as an alternate date to July 28 for the federal election. If parliament is not dissolved by May 29 to permit use of the last Monday in July for balloting, Canadians will go to the polls on August 11 to choose their government for the next five years. Objection to August 4 was twofold. In the first place a large number of Canadian cities observe the first Monday in August as a civic holiday, an occasion which made many thousands away from their homes. Hence polling on that date might have an unpleasant reaction upon a party which kept the holiday-makers at home. Another objection this year is that the date is the anniversary of Britain's entry into the great war. These two factors have decided the issue and unless polling is possible on July 28 it will go over until August 11.

### HUSSAR STAMPEDE

(continued from front page)

Sack race, 14 and under: 1, Carl Snelling; 2, Earl Snelling; 3, Roland Brunsard.
